YOUTH MEETING IN THE NATURAL ENVIRONMENT

28/09/2017

OBJECTIVES

La Diputación Provincial de Huelva launches in the Interpretation Centre of "El Andévalo" (El Almendro, Huelva) the "youth meeting in the natural environment". This activity is designed especially for young people of all municipalities of the province in order to bring them closer to nature as well as to visualize the compatibility of agriculture, livestock and leisure, from a perspective of sustainability and respect for the environment.

In this line, the Agricultural and Livestock Research Service of "La Diputación" makes available "La Finca Huerto Ramírez" of 456 hectares. with the implementation of a set of actions with the youngest, making this property an environment in which productive and socially beneficial activities are combined.

These meetings take place in the months of April-May and October-November, and must be previously requested according to the model designed for it on the website of "La Diputación de Huelva"..

The content of the activities will be linked to the contact with the environment and active tourism, and it includes actions related to hiking, activities in the aquatic environment and approach to the agricultural and livestock rural environment, thematic rooms and Nature Room.

Applications may be made from municipalities or associations of the province of Huelva
